

By Mary-Warby Fitzhugh L

" DIXIE "

"DIXIE": The song that cements the ties of nationalism!

"DIXIE": An idiom, strictly American, but characteristic of the body and soul of a Nation that breathes goodwill to all mankind!

"DIXIE": The greatest dissPELLer of a homesick complex in all song history!

"DIXIE": The archenemy of blues, grouches and idiosyncrasies!

"DIXIE": The par excellence foot waggler, driving away sorrow, to-day, and the morrow!

"DIXIE": The song that makes one sniff yellow roses and magnolia blossoms in memory's garden!

"DIXIE": The eternal coaxer, teasing palates with buckwheat and "Ingen batter"!

"DIXIE": Toying always with blood pressure!
